

**Certified in compliance with European Standards EN 1176 by the German Institute TÜV - SÜD.** Inclusive play equipment designed to promote participation and play experience also for children with disabilities. Structure composed of two beams section 9x9 cm in laminated Nordic pine wood pressure-treated in autoclave with non-toxic salts. Decorative panels made of 1.9 cm okoumé mahogany plywood with phenolic bonding, CNC-machined and with rounded edges. Treated with coloured impregnation and finished with non-toxic water-dilutable wax-based paints. Seats made of 2.4 cm birch plywood with phenolic bonding, finished on both sides with coloured films and anti-slip textured surface. Grab handles and footrests made of round tubular galvanized steel, oven-painted at 180°C. The central part consists of a galvanized steel frame with side panels in 1.9 cm okoumé mahogany plywood with phenolic bonding and rounded edges, treated with coloured impregnation and finished with non-toxic water-dilutable wax-based paints; on the upper part, no. 4 circular-section wooden posts Ø 100 mm shaped as smokestacks are connected to a platform in 2.4 cm birch plywood with phenolic bonding, finished on both sides with coloured films. The structure is fixed on four oven-painted steel springs, approved and complete with anti-finger entrapment device. Assembly by means of galvanized steel 8.8 bolts and self-locking nuts. Standard-compliant coloured nylon nut caps. **Available in the following versions:** Type **A** (IN-GROUND INSTALLATION), by means of hot-dip galvanized steel anchors; Type **B** (FLUSH WITH FLOOR), by means of hot-dip galvanized steel anchors to be fixed with "FISHER" type anchors or similar, NOT INCLUDED. The item is supplied in **assembly kit form**.
