

Play structure for wheelchair accessible playground Multiactivity Village. Certified according to the European Standard EN 1176 by the German TÜV - Product Service Institute. Structure made of glued laminated pine timber, pressure treated with non-toxic salts. Components: N°2 raised hexagonal connected platforms, dim. cm 202x225x130h in multi-layer birch wood glued with phenol formaldehyde resin with non-slip knurled surface, linked to the poles through hot deep galvanized steel chassis. They are equipped with n° 2 car panels, n° 2 Tic Tac Toe game activity panels, n° 3 Swedish ladders with parallel bars Ø 3 cm, n° 1 sound panel. N°4 inclined planes in multi-layer birch wood glued with phenol formaldehyde resin with non-slip knurled surface, that provide direct access to the structure and a connection to the hexagonal towers. The ramps are equipped with tubular galvanized painted steel protection handrails and protective panels in bi-laminate pantographed HPL. Assembly system with 8.8 galvanized steel bolts and self-locking nuts. Coloured nylon cap nuts as required by law. Polyethylene pole caps. Baked finishing at 180°C. Hot-dip galvanized metal brackets for ground anchoring system in a concrete plinth or version to be fixed on the floor.
