

Astoria Bench. Outdoor bench made of wood and iron. The structure consists of 2 tubular supports with a square section 70 x 70 mm and side panels in perforated metal sheet (square hole). Seat made of 2 tubular metal with a square section 70 x 70 mm and exotic wood planks section 50 x 40 mm, fixed to the structure through galvanized steel bolts. The wooden planks are treated with high penetrating stain and with wax-based varnish, water-dilutable, particularly ideal for external use thanks to special protective filters against UV rays. Anchorage system: to be fixed on the ground. Supplied in an assembly-kit. Metal structure entirely galvanized and powder coating at 180°C.
